

1. Record Nr.	UNINA9910467208403321
Titolo	Advances in energy systems : the large-scale renewable energy integration challenge // edited by Peter D. Lund [and three others]
Pubbl/distr/stampa	Hoboken, New Jersey : , : Wiley, , 2019
ISBN	1-119-50831-2 1-119-50833-9
Edizione	[1st edition]
Descrizione fisica	1 online resource (550 pages)
Disciplina	333.794
Soggetti	Renewable energy sources Power resources - Forecasting Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	A guide to a multi-disciplinary approach that includes perspectives from noted experts in the energy and utilities fields Advances in Energy Systems offers a stellar collection of articles selected from the acclaimed journal Wiley Interdisciplinary Review: Energy and Environment. The journal covers all aspects of energy policy, science and technology, environmental and climate change. The book covers a wide range of relevant issues related to the systemic changes for large-scale integration of renewable energy as part of the on-going energy transition. The book addresses smart energy systems technologies, flexibility measures, recent changes in the marketplace and current policies. With contributions from a list of internationally renowned experts, the book deals with the hot topic of systems integration for future energy systems and energy transition. This important resource: Contains contributions from noted experts in the field Covers a broad range of topics on the topic of renewable energy Explores the technical impacts of high shares of wind and solar power Offers a review of international smart-grid policies Includes information on wireless power transmission Presents an authoritative view of micro-grids Contains a wealth of other relevant topics Written forenergy planners,

energy market professionals and technology developers, *Advances in Energy Systems* is an essential guide with contributions from an international panel of experts that addresses the most recent smart energy technologies.

## Sommario/riassunto

This book collects twenty two previously published essays and one new one by Erich S. Gruen who has written extensively on the literature and history of early Judaism and the experience of the Jews in the Greco-Roman world. His many articles on this subject have, however, appeared mostly in conference volumes and Festschriften, and have therefore not had wide circulation. By putting them together in a single work, this will bring the essays to the attention of a much broader scholarly readership and make them more readily available to students in the fields of ancient history and early Judaism. The pieces are quite varied, but develop a number of connected and related themes: Jewish identity in the pagan world, the literary representations by Jews and pagans of one another, the interconnections of Hellenism and Judaism, and the Jewish experience under Hellenistic monarchies and the Roman empire.
