Altri autori (Persone)	HuangYan
Disciplina	401.45
Soggetti	Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>Yan Huang's highly successful textbook on pragmatics - the study of language in use - has been fully revised and updated in this second edition. It includes a brand new chapter on reference, a major topic in both linguistics and the philosophy of language. Chapters have also been updated to include new material on upward and downward entailment, current debates about conversational implicature, impoliteness, emotional deixis, contextualism versus semantic minimalism, and the elimination of binding conditions. The book draws on data from English and a wide range of the world's languages, and shows how pragmatics is related to the study of semantics, syntax, and sociolinguistics and to such fields as the philosophy of language, linguistic anthropology, and artificial intelligence. Professor Huang includes exercises and essay topics at the end of each chapter, and offers guidance and suggested solutions at the end of the volume. Written by one of the leading scholars in the field, this new edition will continue to be an ideal textbook for students of linguistics, and a valuable resource for scholars and students of language in philosophy, psychology, anthropology, and computer science.</p>
