Sommario/riassunto	<p>The volume provides an in-depth account of Old English, organized by linguistic level. Individual chapters investigate the state-of-the art in the linguistics of Old English and explore key areas of debate such as dialectology, language contact, standardization, and literary language. The volume sets the scene with a chapter on pre-Old English and ends with a chapter discussing textual resources available for the study of earlier English.</p> <p>This volume provides an in-depth account of Old English, organized by linguistic level. Individual chapters, written by recognized experts in the field, review the state of the art in phonological, morphological,</p>

syntactic, and semantic studies of Old English. Key areas of debate, including dialectology, language contact, standardization, and literary language, are also explored. The volume sets the scene with a chapter on pre-Old English and ends with a chapter discussing textual resources available for the study of earlier English.
