

1. Record Nr.	UNINA9910467377003321
Autore	Köhler Günter
Titolo	Sarcoma of the female genitalia . Volume 2 Other rare sarcomas, mixed tumors, genital sarcomas and pregnancy // Gunter Kohler [and three others]
Pubbl/distr/stampa	Berlin, [Germany] ; ; Boston, [Massachusetts] : , : De Gruyter, , 2016 ©2016
ISBN	3-11-045925-6 3-11-046002-5
Descrizione fisica	1 online resource (360 p.)
Collana	Sarcoma of the Female Genitalia ; ; Volume 2
Disciplina	616.994075
Soggetti	Sarcoma - Diagnosis Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Frontmatter -- Foreword -- Contents -- List of abbreviations -- Definition of cytoreduction, NCCN-Guidelines -- Immunohistochemistry table -- 1. Angiosarcoma / Köhler, Günter / Evert, Katja / Zygmunt, Marek / Evert, Matthias -- 2. Liposarcoma / Köhler, Günter / Evert, Katja / Zygmunt, Marek / Evert, Matthias -- 3. Rhabdomyosarcoma / Köhler, Günter / Evert, Katja / Zygmunt, Marek / Evert, Matthias -- 4. Perivascular epithelioid cell tumor (PEComa) / Köhler, Günter / Evert, Katja / Zygmunt, Marek / Evert, Matthias -- 5. Adenofibroma / Köhler, Günter / Evert, Katja / Zygmunt, Marek / Evert, Matthias -- 6. Adenosarcoma / Köhler, Günter / Evert, Katja / Zygmunt, Marek / Evert, Matthias -- 7. Carcinosarcoma / Köhler, Günter / Evert, Katja / Zygmunt, Marek / Evert, Matthias -- 8. Fertility and pregnancy and variants of leiomyoma, smooth muscle tumors of unclear malignant potential, stromal tumors, genital sarcomas, PEComas and mixed tumors / Zygmunt, Marek / Evert, Matthias / Evert, Katja / Köhler, Günter -- Index
Sommario/riassunto	The subject matter of volume 2 of the 2-volumes-handbook focusses especially on rare sarcomas of the whole female genitalia. These entities include angiosarcoma, the different lipo- and

rhabdomyosarcoma as well as newer entities like the PEComa. Furthermore, mixed mullerian tumors like the benign adenofibroma and the malignant adenosarcoma and carcinosarcoma are described in detail. The book provides a description at length of the epidemiology, etiology, pathological anatomy, prognosis, diagnosis, differential diagnosis, imaging and comprehensive therapy of each primary, relapsed and metastasized tumor including surgery, chemo-, hormone-, radio- and targeted therapy. An own chapter is devoted to the problems of fertility and pregnancy in connection with all sarcomas, variants of leiomyoma, atypical smooth muscle tumors, disseminated peritoneal leiomyomatosis, benign metastasizing leiomyoma, intravenous leiomyomatosis and endometrial stromal tumors - endometrial stromal nodules, endometrial stromal tumor with sex cord-like elements (ESTSCLE), uterine tumor resembling ovarian sex-cord tumor (UTROSCT) -and all mixed tumors - of the female genitalia. The book aims to identify and provide diagnostic and therapeutic guidance. The listed tumor entities also constitute a particular diagnostic challenge for pathologists that contains numerous pitfalls and difficulties. This book, therefore, addresses gynecologists and pathologists in both clinical and private practice, but also surgeons and hemato-oncologists.
