Titolo	A critical examination of the coherence-based genealogical method in New Testament textual criticism // by Peter J. Gurry
Pubbl/distr/stampa	Leiden, The Netherlands ; ; Boston, [Massachusetts] : , : Brill , , 2017 ©2017
ISBN	90-04-35454-9
Descrizione fisica	1 online resource (268 pages) : illustrations
Collana	New Testament Tools, Studies and Documents, , 0077-8842 ; ; Volume 55
Disciplina	225.4046
Soggetti	Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	Front Matter -- Introduction -- The History and Reception of the CBGM -- The CBGM in Theory and Practice -- Recovering the Initial Text -- Scribal Tendencies in James -- A Historical Test: The Harklean Group in the CBGM -- The Selection of Variants in the CBGM -- Limitations and Improvements -- Summary and Conclusion -- Appendix A: Changes in NA/UBS/ECM -- Appendix B: Harklean Readings in 1John -- Appendix C: Orthographica in James -- Bibliography -- Indexes.
Sommario/riassunto	This study offers the first sustained examination of the Coherence-Based Genealogical Method (CBGM), a computerized method being used to edit the most widely-used editions of the Greek New Testament. Part one addresses the CBGM's history and reception before providing a fresh statement of its principles and procedures. Parts two and three consider the method's ability to recover the initial text and to delineate its history. A new portion of the global stemma is presented for the first time and important conclusions are drawn about the nature of the initial text, scribal habits, and the origins of the Byzantine text. A final chapter suggests improvements and highlights limitations. Overall, the CBGM is positively assessed but not without important criticisms and cautions.
