   ISBN               1-64267-006-5

   Edizione           [First edition.]

   Descrizione fisica  1 online resource (386 pages)

   Disciplina         375/.001

   Soggetti           Instructional systems - Design
                      Electronic books.

   Lingua di pubblicazione   Inglese

   Formato            Materiale a stampa

   Livello bibliografico    Monografia

   Nota di bibliografia    Includes bibliographical references and index.

   Sommario/riassunto  "Designing courses to deliver effective teaching and significant learning
                      is the best way to set students up for success, and this book guides
                      readers through the process. The authors have worked with faculty
                      world-wide, and share the stories of how faculty have transformed
                      courses from theory to practice. They start with Dee Fink's foundation
                      of integrating course design. Then they provide additional design
                      concepts to expand the course blueprint to implement plans for
                      communication, accessibility, technology integration, as well as the
                      assessment of course design as it fits into the assessment of programs
                      and institutions, and how faculty can use what they learn to meet their
                      professional goals"--
