Autore	White Roger
Titolo	Multidimensional poverty in America : the incidence and intensity of deprivation, 2008-2018 // Roger White
Pubbl/distr/stampa	Cham, Switzerland : , : Palgrave Macmillan, , [2020] Â©2020
ISBN	3-030-45916-0
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (XIX, 333 p. 23 illus.)
Disciplina	339.460973
Soggetti	Poverty - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	1. Poverty and Deprivation in America -- 2. A Survey of Related Literature -- 3. Measuring Multidimensional Poverty -- 4. A Profile of the Multidimensionally Poor in America -- 5. Variation in Multidimensional Poverty across Demographic Cohorts -- 6. Variation in Multidimensional Poverty across Geographic Locales -- 7. Identifying the Determinants of Multidimensional Poverty -- 8. The Effects of the Affordable Care Act on Multidimensional Poverty -- 9. Nativity, Immigrant Source Countries, and Multidimensional Poverty -- 10. Multidimensional Poverty over the Life Cycle -- 11. Reducing Multidimensional Poverty: A Series of Counterfactual Analyses -- 12. Summary and Conclusions.
Sommario/riassunto	This book investigates and documents multidimensional poverty in the United States and identifies patterns and relationships that contribute to the development of a more complete understanding of the incidence and intensity of deprivation. The first part introduces multidimensional poverty and provides a rationale for viewing poverty through a lens of multiple deprivations. It discusses how the Multidimensional Poverty Index (MPI) compares to more narrowly-focused, income-based poverty measures and emphasizes its usefulness and applicability for the formulation of related, welfare-enhancing public policies. The second part documents multidimensional poverty incidence, intensity, and corresponding MPI values at the aggregate level of detail, for various demographic cohorts, and across geographic locales. The book then

presents results from an empirical analysis that identifies the determinants of multidimensional poverty incidence and of individual deprivation scores. The third part consists of three studies of multidimensional poverty, examining the effect of the Affordable Care Act on multidimensional poverty incidence and intensity, variation in multidimensional poverty across native- and foreign-born residents (and across immigrants' home countries) of the US, and variation in the respective indicators that contribute to multidimensional poverty across the life cycle. The book closes with two chapters. The first relays the findings of counterfactual exercises where certain deprivations are assumed to have been eliminated. The final chapter summarizes the work, draws inferences and arrives at conclusions, and discusses the corresponding public policy implications.
