Sommario/riassunto	This book approaches Green Civilization based on the background of international initiative on sustainable development and in-depth analyzes the valuable era consensus reached by 193 countries on the UN Sustainable Development 2030 Agenda. The Author expounds own point of view to debate the well-known book Clash of Civilizations by

the method of contradictory debate dialectically. In addition, it demonstrates the development of Human Green Civilization systematically by Multi-dimensional history material of human civilization. This book covers the academic, political, and business in the world. It is suitable for scholars, researchers, students and university degree readers for economics, eco-environment, political science, sociology and anthropology. It aims at promoting the realization of the UN 2030 Agenda for Sustainable Development, at promoting the dialogue between the East and the West, working for facilitating peace for mankind and spreading the advanced concept of sustainable human development to the people of all countries.
