   Sommario/riassunto   ISOCC has established a long tradition as an annual conference
                        providing the premier SoC design forum for worldwide researchers
                        from academia and industries Since its inception, ISOCC has been
                        continuing to showcase the most recent innovations and trends in the
                        semiconductor system on a chip area with active participations from
                        worldwide researchers in academia, industry, and institutes ISOCC
                        2020 welcomes technical papers in the field of semiconductor circuits
                        and systems presenting new advanced concept and developments in
                        analog and digital circuit and system design, theory, simulation,
                        modeling, experimental implementations and experiences, and
                        emerging technologies in the system on a chip area The 17th
                        International SoC Conference (ISOCC 2020) will be held from October
                        21st to 24th, 2020 at Sono Calm Yeosu Hotel, Yeosu in Korea Yeosu
                        (called Venice of Korea) is one of the country s most picturesque port
                        cities especially at night Famous for its seafood, beaches, flowers.
