

1. Record Nr.	UNINA9910473453903321
Autore	Vezzoli Carlo
Titolo	Designing Sustainability for All : The Design of Sustainable Product-Service Systems Applied to Distributed Economies
Pubbl/distr/stampa	Springer Nature, 2021 Cham : , : Springer International Publishing AG, , 2021 ©2021
ISBN	3-030-66300-0
Descrizione fisica	1 online resource (150 pages)
Collana	Lecture Notes in Mechanical Engineering
Classificazione	BUS072000TEC009060TEC016020
Altri autori (Persone)	Garcia ParraBrenda KohtalaCindy
Soggetti	Technical design Business & the environment, 'Green' approaches to business Sustainability Production engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This open access book introduces design for Sustainable Product-Service Systems (S.PSS) and for Sustainable Distributed Economies (S. DE). These are introduced as technical and operative tools for the development of a new generation of designers, responsible and capable of designing environmentally, socially and economically sustainable solutions, accessible to all. The book provides a comprehensive framework and also practical tools to support the system design for sustainability process. It overviews methodologies, tools and strategies for Sustainable PSS design applied to Distributed Economies (DE) and provides strategies and design guidelines. All of these are highlighted and expanded upon with international case studies.
