microfinance industry; 9 Debtfarism and the housing industry;
Conclusion; Bibliography; Index

Sommario/riassunto

"This book theorizes the politics of debt and credit that underpins the expansion of consumer credit to the poor and addresses the role of states in facilitating consumer credit, in the developed and developing world. It features a range of case studies on pension securitization, credit cards, payday and student loans in the United States, and micro-lending and housing finance in Mexico"--
