Soggetti	Great Britain History Charles I, 1625-1649 Early works to 1800 Ireland History Rebellion of 1641 Early works to 1800
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Reproduction of the original in the British Library. Annotation on Thomason copy: "Feb: 20th".
Sommario/riassunto	eebo-0018

2. Record Nr.	UNINA9910476788503321
Autore	Richterich Annika
Titolo	The big data agenda : data ethics and critical data studies / / Annika Richterich
Pubbl/distr/stampa	London : , : University of Westminster Press, , [2018] ©2018
Descrizione fisica	1 online resource (iv, 148 pages)
Collana	CDSMS (Critical digital and social media studies)
Disciplina	005.7
Soggetti	Big data - Moral and ethical aspects Technology - Moral and ethical aspects Computer science - Moral and ethical aspects
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references (pages 115-141) and index.
Nota di contenuto	CHAPTER 1 Introduction -- CHAPTER 2 Examining (Big) Data Practices and Ethics -- CHAPTER 3 Big Data: Ethical Debates -- CHAPTER 4 Big Data in Biomedical Research -- CHAPTER 5 Big Data-Driven Health Surveillance -- CHAPTER 6 Emerging (Inter-)Dependencies and their Implications.
Sommario/riassunto	"This book highlights that the capacity for gathering, analysing, and utilising vast amounts of digital (user) data raises significant ethical issues. Annika Richterich provides a systematic contemporary overview of the field of critical data studies that reflects on practices of digital data collection and analysis. The book assesses in detail one big data research area: biomedical studies, focused on epidemiological surveillance. Specific case studies explore how big data have been used in academic work. The Big Data Agenda concludes that the use of big data in research urgently needs to be considered from the vantage point of ethics and social justice. Drawing upon discourse ethics and critical data studies, Richterich argues that entanglements between big data research and technology/ internet corporations have emerged. In consequence, more opportunities for discussing and negotiating emerging research practices and their implications for societal values are needed. An electronic version of this book is freely available, thanks
