Developments of the two nirvana theory 4. Nirvana in the Theravada Buddhist tradition 5. Nirvana in Northern Buddhist schools 6. Conclusion Part II: Annotated translations of the related texts in Pali, Sanskrit and Chinese Selected sources for the nirvana concept and the two nirvana theory.</p>
Sommario/riassunto	<p>Soonil Hwang studies the doctrinal development of nirvana in the Pali Nikaya and subsequent tradition and compares it with the Chinese aagama and its traditional interpretation. He clarifies early doctrinal developments of Nirvana and traces the word and related terms back to their original metaphorical contexts, elucidating diverse interpretations and doctrinal and philosophical developments in the abhidharma exegeses and treatises of Southern and Northern Buddhist schools. The book finally examines which school, if any, kept the original meaning and reference of Nirvana.</p>

Sommario/riassunto	This open access textbook offers a practical guide into research ethics for undergraduate students in the social sciences. A step-by-step approach of the most viable issues, in-depth discussions of case histories and a variety of didactical tools will aid the student to grasp the issues at hand and help him or her develop strategies to deal with them. This book addresses problems and questions that any bachelor student in the social sciences should be aware of, including plagiarism, data fabrication and other types of fraud, data augmentation, various

forms of research bias, but also peer pressure, issues with confidentiality and questions regarding conflicts of interest. Cheating, 'free riding', and broader issues that relate to the place of the social sciences in society are also included. The book concludes with a step-by-step approach designed to coach a student through a research application process.
