ISBN	90-04-44471-8
Descrizione fisica	1 online resource
Collana	Brill Research Perspectives
Disciplina	341
Soggetti	River channels - Law and legislation River channels - Government policy Water security - Law and legislation Zambezi River Watershed International status
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	"Implementing International Watercourses Law through the WEF and SDGs: An Integrated Approach Illustrated in the Zambezi River Basin offers an innovative approach to the governance of shared watercourses and the implementation of international water law through the Law, Nexus and Goals (LNG) approach. By looking at policy frameworks such as the WEF nexus and global development agendas such as the SDGs, the monograph provides a method of integration for holistic water governance. In order to demonstrate this approach, a case study of the Zambezi River Basin is used, through which the monograph not only exemplifies the approach taken, but also provides a detailed account of the legal and policy frameworks within the basin" --
