Descrizione fisica	1 online resource (257 pages)
Disciplina	809
Soggetti	Comparative literature
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Comparative Literature is changing fast with methodologies, topics, and research interests emerging and reemerging. The fifth volume of ICLA 2016 proceedings, Dialogues between Media, focuses on the current interest in inter-arts studies, as well as papers on comics studies, further testimony to the fact that comics have truly arrived in mainstream academic discourse."Adaptation" is a key term for the studies presented in this volume; various articles discuss the adaptation of literary source texts in different target media - cinematic versions, comics adaptations, TV series, theatre, and opera. Essays on the interplay of media beyond adaptation further show many of the strands that are woven into dialogues between media, and thus the expanding range of comparative literature.

3. Record Nr.	UNINA9910972899203321
