Descrizione fisica	1 online resource (1 p.)
Soggetti	Business & Economics / Finance Economics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The EIB Group has been measuring and managing the environmental impact of its operations since 2007. In that time we have grown to meet the needs of European citizens (and beyond) by providing sustainable finance to tackle Climate change across the globe. In 2019 the EIB Group has improved its Carbon footprint and reduced emissions resulting from its internal operations. In 2019, the relative carbon footprint per employee fell by 6.0% to 5.41 tCO ₂ e per employee. At the same time, the Group's total net carbon footprint decreased by 4.4% to 21,434 tCO ₂ e. This reduction is mostly driven by a decrease in business travel, commuting and data centres (Green IT).
