Soggetti	Science / Global Warming & Climate Change Business & Economics / Environmental Economics Science
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Climate change is the biggest threat humanity faces. So big, in fact, that it is sometimes hard to know what each of us, as individuals, can do to counter it. Climate Solutions details the challenges, lays out the solutions and shows you which ones you can make part of your life. Written by experts at the EU climate bank, each chapter helps you figure out what you can do in areas that range from how you get around to what you eat, from protecting our oceans and rivers to ensuring that your digital devices do not damage the environment.
