Sommario/riassunto	<DIV>A stirring and sobering diagnosis of the challenges that confront anyone laboring to renew America's tradition of ordered liberty. Classicist Bruce Thornton's <I>Plagues of the Mind</I> is a forceful vindication of the West's tradition of rational, critical inquiry-a legacy now largely jettisoned in favor of a host of new deities, environmentalism, feminism, primitivism, New Age, and the cult of the therapeutic among them. <br clear=""all"" /> </DIV>
