Note generali	Previously issued in print: 2016.
Nota di bibliografia	Includes bibliographical references (pages [143]-156) and index.
Nota di contenuto	Introduction -- 1. Entanglements -- 2. Ideology as double bind -- 3. Green is life -- 4. Projecting discourse : less than theory, smaller than ideology -- 5. Designing the agenda with hope -- Conclusion.
Sommario/riassunto	This highly engaging book invites the reader to learn about how South Korean activists, intellectuals and various reformers approach the role of civil society in a post-colonial, post-Cold War, post-dictatorship, and post-IMF neoliberal democracy. In particular, it provides a detailed description of civil movement organisations in Seoul leading up to, during and after the Roh Moo Hyun era (2003-8). The book engages the entangled hopes, crises and pragmatic transitions that animated this era in South Korean politics and connects it with larger debates in anthropology, sociology, law and politics from around the world. Ultimately, the book contributes to growing areas of research, advocacy and general interest in pragmatism, ethnography, hope and crisis.

An Autocritical Exercise upon *Jane Eyre* / Michelene Wandor.

#### Sommario/riassunto

Ever since its publication in 1847 *Jane Eyre* – one of the most popular English novels of all time – has fascinated scholars and a wide reading public alike and has proved a source of inspiration to successive generations of creative writers and artists. There is hardly any other hypertext that has been re-worked in so many adaptations for stage and screen, has inspired so many painters and musicians, and has been so often imitated, re-written, parodied or extended by prequels and sequels. New versions in turn refer to and revise older rewritings or take up suggestions from Brontë scholarship, creating a dense intertextual web. The essays collected in this volume do justice to the variety of media involved in the *Jane Eyre* reworkings, by covering narrative, visual and stage adaptations, including an adaptor's perspective. Contributions review a diverse range of works, from postcolonial revision to postmodern fantasy, from imaginary after-lives to science fiction, from plays and Hollywood movies to opera, from lithographs and illustrated editions to comics and graphic novels. The volume thus offers a comprehensive collection of reworkings that also takes into account recent novels, plays and works of art that were published after Patsy Stoneman's seminal 1996 study on Brontë Transformations .
