Sommario/riassunto	In the second edition of his essential book-which incorporates vital new information and new material on immigration, race, gender, and the social crisis following 2008-Michael Zweig warns that by allowing the working class to disappear into categories of "middle class" or "consumers," we also allow those with the dominant power, capitalists, to vanish among the rich. Economic relations then appear as comparisons of income or lifestyle rather than as what they truly are- contests of power, at work and in the larger society.

Sommario/riassunto	The Bishop of one of the richest dioceses in the world, Chartres is passionately concerned with preaching the Christian Gospel. For Chartres wisdom is a way of being in the world, respectful of other human beings, taking life, not for granted, but with thanksgiving to its Author. Having set out his basic theme in the first chapter, Bishop Chartres invites the reader to join him through the Church's year. At every turn he addresses the human condition of modern men and women and opens our eyes to endless possibilities in living the Gospel.
