Sommario/riassunto	The 'triple overlap' refers to the link between gender stratification, the household and economic variables. In this volume, leading sociologists examine this overlap as a totality, providing theoretical concepts and new research on how the triple overlap works, both inside the family and within the broader context of society. Their competing conceptions of the interrelationship of gender, family and economy are bolstered by empirical papers which raise questions of culture, class and race within the contexts of both the developed and developing worlds. Six of the articles in this volume were
