Sommario/riassunto	In Minorities, their Rights, and the Monitoring the European Framework Convention for the Protection of National Minorities , Malloy and Caruso have collected a number of essays authored by prominent European experts on minority rights with aim to provide a first ever description and analysis of the processes guiding the monitoring of the Convention. The volume addresses both the technical and political side of the monitoring, and it brings in not only views from the host of the Convention, the Council of Europe, but also from the external players that interact with the Convention in the course of seeking to protect Europe's national minorities
