| Sommario/riassunto      | "If you are a Professional Crime Scene Investigator, then this book is a must have for both your personal forensic reference library, as well as your office reference library." —Edward W. Wallace Jr., Certified Senior Crime Scene Analyst, Retired First Grade Detective, NYPD"Techniques of Crime Scene Investigation is a well-written, comprehensive guide to the investigative and technical aspects of CSI. The textbook is an educational standard on the theory and practice of crime scene investigation and includes many informative casework examples and  |

photographs. On reading this book, students, entry-level personnel, and experienced practitioners will have a better understanding of the strengths and limitations of forensic science in its application to crime scene investigations." —Professor Don Johnson, School of Criminal Justice and Criminalistics, California State University, Los Angeles

The application of science and technology plays a critical role in the investigation and adjudication of crimes in our criminal justice system. But before science can be brought to bear on evidence, it must be recognized and collected in an appropriate manner at crime scenes. Written by authors with over 50 years of combined experience in forensic science, *Techniques of Crime Scene Investigation* examines the concepts, field-tested techniques, and procedures of crime scene investigation. Detectives, crime scene technicians, and forensic scientists can rely on this updated version of the "forensics bible" to effectively apply science and technology to the tasks of solving crimes.

## Nota di bibliografia

Includes bibliographical references and index.

## Nota di contenuto

1. Ireland under austerity : an introduction to the book / Colin Coulter -- part I. The political economy of crisis in Ireland -- 2. False economy : the financialisation of Ireland and the roots of austerity / Conor McCabe -- 3. Interpretations of the Irish economic crash / Kieran Allen -- 4. A perfect storm : crisis, capitalism and democracy / Sin{acute}ead Kennedy -- 5. Ireland and the new economy / Angela Nagle -- part II. Casualties of the crisis in Ireland -- 6. Ireland's disappeared : suicide, violence and austerity / Michael Cronin -- 7. The impact of the crisis on Irish women / Alison Spillane -- 8. Defiance and hope : austerity and the community sector in the Republic of Ireland / John Bissett -- 9. All aboard the migration nation / Gavan Titley -- part III. Lessons of the crisis for the Irish left -- 10. Lessons from the era of social partnership for the Irish labour movement / Francisco Arqueros-Fern{acute}andez -- 11. Ireland, the left and the European Union / Daniel Finn -- 12. Business in Ireland is too important to be left to Irish business / Michael Taft.

## Sommario/riassunto

Once held up as a 'poster child' for the benefits of untrammelled capitalist globalisation, the Irish Republic has more recently come to represent a cautionary tale for those tempted to tread the same neoliberal path. The crash in the world economy had especially grave repercussions for Ireland, as it only narrowly escaped bankruptcy by negotiating emergency loans at punitive rates from the IMF, EU and ECB. A series of austerity measures introduced by successive Irish governments and overseen by the institutions of global finance has seen the country endure what some consider the most substantial 'adjustment' ever experienced in a developed society during peacetime. In this collection of essays, a range of academics, economists and political commentators delineate the reactionary course that Ireland has followed since the ignominious demise of the Celtic Tiger. A central thread that runs through the book is that the forces of neoliberalism have employed the economic crisis they caused to advance policies that are in their own very narrow interests. The host of regressive measures imposed since the onset of global recession has fundamentally restructured Irish society and will continue to do so long after public anger recedes and the national humiliation of the 'bailout' fades from memory. Ireland Under Austerity provides a critical and engaging account of what has happened to a society that in recent years has, more than most, mapped out the pernicious cycle of boom and bust that remains an essential hallmark of contemporary capitalism.
