1. Record Nr. UNINA9910480217603321

Titolo	Recent trends in nonlinear partial differential equations II : workshop in honor of Patrizia Pucci's 60th birthday : nonlinear partial differential equations, May 28-June 1, 2012, University of Perugia, Perugia, Italy / / James B. Serrin, Enzo L. Mitidieri, Vicentiu D. Radulescu, [editors]
Pubbl/distr/stampa	Providence, Rhode Island : , : American Mathematical Society, , 2013 ©2013
ISBN	1-4704-0993-3
Descrizione fisica	1 online resource (354 p.)
Collana	Contemporary Mathematics, , 1098-3627 ; ; Volume 595
Disciplina	515/.353
Soggetti	Differential equations, Nonlinear Differential equations, Parabolic Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	""Thanks""; ""Preface""; ""On degree theory for quasilinear elliptic equations with natural growth conditions""; ""1. Introduction""; ""2. Topological degree in reflexive Banach spaces""; ""3. Quasilinear elliptic equations with controllable growth conditions""; ""4. Quasilinear elliptic equations with natural growth conditions""; ""5. Topological degree for quasilinear elliptic equations with natural growth conditions""; ""References""; ""Radial solutions for a Gelfand type quasilinear elliptic problem with quadratic gradient terms""; ""1. Introduction""; ""2. The general problem"" ""3. Radial solutions for the Gelfand quasilinear problem"""""" References""; ""Remarks on some quasilinear equations with gradient terms and measure data""; ""1. Introduction""; ""2. Notions of solutions""; ""3. Existence in the subcritical case""; ""4. Necessary conditions for existence and removability results""; ""5. Existence in the supercritical case""; ""6. Some regularity results""; ""Acknowledgement""; ""References""; ""The effect of a linear term in some nonlinear elliptic equations with singular data""; ""1. Introduction""; ""2. Existence""; ""3. Maximum principle""

""Acknowledgements."""""References""; ""Quantitative bounds for subcritical semilinear elliptic equations""; ""1. Introduction""; ""2. Maximum and comparison principles on small sets""; ""3. Global estimates I""; ""4. Reminder on quantitative local bounds""; ""5. Global estimates II. Boundary estimates and global Harnack inequalities""; ""6. Comparing solutions for different values of and the limit as a??1""; ""7. Appendix""; ""Acknowledgment""; ""References""; ""Sub and supersolutions, invariant cones and multiplicity results for -Laplace equations""; ""1. Introduction""
""2. Statement of the main results"""""3. Preliminaries""; ""4. Minimal energy solution between ordered sub-supersolutions""; ""5. Mountain pass solution in presence of multiple sub-supersolutions""; ""6. Existence of -invariant open sets""; ""7. A four solutions theorem""; ""8. Additional -invariance results""; ""Acknowledgment""; ""References""; ""A Moser type inequality in Zygmund spaces without boundary conditions""; ""1. Introduction""; ""2. Function space setting""; ""3. Proof of Theorem 1.2""; ""References""
""2. Assumptions and statement of the main results""
