The *Technai* 2. Dionysius Thrax

Sommario/riassunto

This book presents in a single volume a comprehensive history of the language sciences, from ancient times through to the twentieth century. While there has been a concentration on those traditions that have the greatest international relevance, a particular effort has been made to go beyond traditional Eurocentric accounts, and to cover a broad geographical spread. For the twentieth century a section has been devoted to the various trends, schools, and theoretical framework developed in Europe, North America and Australasia over the past seventy years. There has also been a concentration on t
