Sommario/riassunto	This book critiques the relation between sovereignty and democracy. Across nine theses, Vardoulakis argues that sovereignty asserts its power by establishing exclusions: the sovereign excluding other citizens from power and excludes refugees and immigrants from citizenship. Within this structure, to resist sovereignty is to reproduce the logic of exclusion characteristic of sovereignty. In contrast to this "ruse of sovereignty," Vardoulakis proposes an alternative model for political change. He argues that democracy can be understood as the structure of power that does not rely on exclusions and whose relation to sovereignty is marked not by exclusion but of incessant agonism. The term stasis, which refers both to the state and to revolution against it, offers a tension that helps to show how the democratic imperative is presupposed by the logic of sovereignty, and how agonism is more primary than exclusion. In elaborating this ancient but only recently

recovered concept of stasis, Vardoulakis illustrates the radical potential of democracy to move beyond the logic of exclusion and the ruse of sovereignty.

Sommario/riassunto	The Text Encoding Initiative (TEI) Guidelines have long been regarded as the de facto standard for the preparation of digital textual resources in the scholarly research community. For the beginner, they offer a daunting range of possibilities, reflecting the huge range of potential applications for text encoding, from traditional scholarly editions, to language corpora, historical lexicons, digital archives and beyond. Drawing on many examples of TEI-encoded text from a variety of research domains, this simple and straightforward book is intended to help the beginner make their own choices from the full range of TEI options. It explains the XML technology used by the TEI in language accessible to the non-technical reader and provides a guided tour of the many parts of the TEI universe, and how it may be customized to suit an individual project's needs. This work has been produced with

the support of Labex Hastec.
