S. Buslig and Anthony M. Ocaña -- Power as Determinant of the Distributive Conflict Resolution: Strategies of University Students / Gražina iuladien -- Beginning Counsellors' Performances of Self to Client Audiences / Peter Bray.
Sommario/riassunto	What drives young men to terroristic extremes? How can coverage of the sex industry impede criminalization efforts? Why can't college students just get along? Presenting an array of perspectives, applications, and approaches toward conflict analysis, this ebook tackles challenging topics we face not only globally, but also in our most personal interactions. Beginning with the language that launched

the Iraq war, we examine how nations and cultures clash across borders. Within borders, we explore the impact of language on identity, alienation, and nation-sanctioned vice. Finally, we get personal as we examine how students and young professionals struggle with power and identity in their efforts to effectively express who they are and how they relate to others. Clashing Wor(l)ds reveals the inescapable connection between communication and conflict, where only greater understanding can offer hope for better relations.
