Sommario/riassunto	If you would like a more effective way to deal with discipline issues

than 'old school' punishment, this book is for you. The authors provide a research-based and field-tested model that gives school leaders more productive alternatives to reprimands, exclusion, and out-of-school suspension. This positive program helps improve behaviour and keep students in school. This guide's model covers school-wide prevention, restoration, and intervention needs for students with emotional, behavioural, and conduct disorders (such as bullying) as well as developmental disabilities and autism.
