#### Sommario/riassunto

In 1926/27 the Soviet Central Statistical Administration initiated several yearlong expeditions to gather primary data on the whereabouts, economy and living conditions of all rural peoples living in the Arctic and sub-Arctic at the end of the Russian civil war. Due partly to the enthusiasm of local geographers and ethnographers, the Polar Census grew into a massive ethnological exercise, gathering not only basic demographic and economic data on every household but also a rich archive of photographs, maps, kinship charts, narrative transcripts and museum artifacts. To this day,

2. Record Nr.	UNINA9910707350603321
Autore	Herrera-Fierro Pilar
Titolo	Spectroscopic analysis of perfluoropolyether lubricant degradation during boundary lubrication / / Pilar Herrera-Fierro, Bradley A. Shogrin, William R. Jones, Jr
Pubbl/distr/stampa	Cleveland, Ohio : , : National Aeronautics and Space Administration, Lewis Research Center, , September 1996
Descrizione fisica	1 online resource (21 pages) : illustrations
Collana	NASA technical memorandum ; ; 107299
Soggetti	Boundary lubrication Coatings Coefficient of friction Stainless steels Spectroscopic analysis Thin films Degradation
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed July 20, 2016). "September 1996"--Report documentation page. "Prepared for the 1997 Tribology Conference cosponsored by the Society of Tribologists and Lubrication Engineers and the American Society of Mechanical Engineers, London, United Kingdom, September 8-12, 1997." "Performing organization: National Aeronautics and Space Administration, Lewis Research Center"--Report documentation page.
Nota di bibliografia	Includes bibliographical references (pages 13-14).

3. Record Nr.	UNINA9910786432703321

Multinational Corporations as Regulators and Central Planners -- Chapter 14. Ethnicity, Inc. -- Chapter 15. Corporate Nostalgia? -- Chapter 16. Can For-Profit Corporations Be Good Citizens? -- Notes -- Contributors -- Index -- Acknowledgments
Sommario/riassunto	President Theodore Roosevelt once proclaimed, "Great corporations exist only because they are created and safeguarded by our institutions, and it is therefore our right and duty to see that they work in harmony with those institutions." But while corporations are ostensibly regulated by citizens through their governments, the firms

in turn regulate many aspects of social and political life for individuals beyond their own employees and the communities that support them. Corporations are endowed with many of the same rights as citizens, such as freedom of speech, but are not themselves typically constituted around ideals of national belonging and democracy. In the wake of the global financial collapse of 2008, the question of what relationship corporations should have to governing institutions has only increased in urgency. As a democratically sanctioned social institution, should a corporation operate primarily toward profit accumulation or should its proper goal be to provision society with needed goods and services? Corporations and Citizenship addresses the role of modern for-profit corporations as a distinctive kind of social formation within democratic national states. Scholars of legal studies, business ethics, politics, history, and anthropology bring their perspectives to bear on particular case studies, such as Enron and Wall Street, as well as broader issues of belonging, social responsibility, for-profit higher education, and regulation. Together, these essays establish a complex and detailed understanding of the ways corporations contribute positively to human well-being as well as the dangers that they pose.
