[et al.] -- Illustrating framework for rural prevention research : project family studies of rural family participation and outcomes / Richard Spoth and Cleve Redmond -- The state of prevention and early intervention / David R. Offord.

Sommario/riassunto

'Increasingly in the past few years, there has been much public concern about crime, in particular crimes of violence, and the increase in aggression and anti-social behaviour among adolescents... The theme of this book is prevention and early intervention. It will be of interest to a wide readership... the book provides an excellent review of current thinking and research on prevention. It is full of imaginative initiatives and does not ignore the problems' - The Psychologist
Outcome studies have shown that treatment programmes for child and adolescent social and be
