The Hidden Message of Zhang Heng's "Contemplating the Mystery" -- 9. A New Discourse on "Lament for the South" in the Fu of the Ming- Qing Transition -- Bibliography -- Index
Sommario/riassunto	This is the first book in English to examine the fu, one of China's oldest and culturally central literary forms, from its origins up to the late imperial era. Fu poems are highly revealing sources for understanding the culture, society, and politics of their periods, and in this volume eleven essays by prominent scholars treat the fu from four major perspectives: its original use in court recitation; as a poetic genre with distinctive formal features; as a vehicle of philosophical inquiry; and as a major mode of political expression.
