| Sommario/riassunto | Most white philosophers of religion generally presume that philosophy of religion is based on what is a false universality; whereby the white/Western experience is paradigmatic of humanity at-large. The |

fact remains that Howard Thurman, James H. Cone and William R. Jones, among others, have produced a substantial amount of theological work quite worthy of consideration by philosophers of religion. Yet this corpus of thought is not reflected in the scholarly literature that constitutes the main body of philosophy of religion. Neglect and ignorance of African American Studies is widespread in the academy. By including chapters on Thurman, Cone and Jones, the present book functions as a corrective to this scholarly lacuna.

Sommario/riassunto

Little has been written on Japanese contract law and anti-trust law in Western languages. This book describes the role of this law in protecting the distributor against unilateral terminations of distribution agreements. There have been significant pressures both to lower prices and restructure distribution channels in Japan which have strained many distribution agreements. This volume, based primarily on Japanese language legal material, not only involves a study of applicable black-letter law, but also a sociological study of its application in practice. Detailed analysis has been made in pa
