Sommario/riassunto

This volume is timely in that it explores key issues which are currently at the forefront of the EU's relations with its eastern neighbours. It considers the impact of a more assertive Russia, the significance of Turkey, the limitations of the Eastern Partnership with Belarus and Moldova, the position of a Ukraine in crisis and pulled between Russia and the EU, security and democracy in the South Caucasus. It looks at the contested nature of European identity in areas such as the Balkans. In addition it looks at ways in which the EU's interests and values can be tested in sectors such as trade and migration. The interplay between values, identity and interests and their effect on the interpretation of europeanisation between the EU and its neighbours is a core theme of the volume.
