Individual interactions with information technology in the organizational context -- part IV. Information technology and collective behaviors -- part V. Information technology and organizational design.
Sommario/riassunto	How do technology and organization interact to shape organizational structures and processes? What organizational, political and social processes constrain technological development? What forces shape the articulation of organizational and technological systems? Answering these and other pivotal questions, this volume centres on the role of theory for advancing our knowledge of communication technology in organizations at several levels - micro, group and macro.
