

1. Record Nr.	UNINA9910481047503321
Autore	Speicher Roland <1960->
Titolo	Combinatorial theory of the free product with amalgamation and operator-valued free probability theory / / Roland Speicher
Pubbl/distr/stampa	Providence, Rhode Island : , : American Mathematical Society, , [1998] ©1998
ISBN	1-4704-0216-5
Descrizione fisica	1 online resource (105 p.)
Collana	Memoirs of the American Mathematical Society, , 0065-9266 ; ; number 627
Disciplina	510 s 512/.55
Soggetti	Operator-valued functions Selfadjoint operators Free products (Group theory) Combinatorial analysis Free probability theory Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"March 1998, volume 132, number 627 (third of 5 numbers)."
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	""Contents""; ""Introduction""; ""Chapter I. Preliminaries on non-crossing partitions""; ""1.1. Non-crossing partitions""; ""1.2. Incidence algebra and convolution""; ""1.3. Multiplicative functions""; ""Chapter II. Operator-valued multiplicative functions on the lattice of non-crossing partitions""; ""2.1. Operator-valued multiplicative functions""; ""2.2. Connection between f and $f_{a??C}$ ""; ""2.3. Special case $I = I(C,C)$ ""; ""2.4. Tracial multiplicative functions""; ""2.5. Product and cluster property""; ""Chapter III. Amalgamated free products""; ""3.1. Basic notations""; ""3.2. Moment and cumulant functions""""3.3. Definition of the amalgamated free product""; ""3.4. Explicit formula for $I_{\pm}^{a??I_{\pm}^{[sub(1)]}}$ ""; ""3.5. Positivity of the amalgamated free product""; ""Chapter IV. Operator-valued free probability theory""; ""4.1. B-valued random variables and free convolution""; ""4.2. B-Gaussian distributions and central limit theorem""; ""4.3. Positivity of B-Gaussian distributions""; ""4.4. Compound B-Poisson distributions""; ""4.5. Infinitely divisible

distributions""; ""4.6. Full Fock space over a Hilbert-B-bimodule""
""4.7. Realization of infinitely divisible distributions on a full Fock
space""""Chapter V. Operator-valued stochastic processes and
stochastic differential equations""; ""5.1. B-valued stochastic
processes""; ""5.2. Formulation of the problem""; ""5.3. Possible
solutions of the problem""; ""5.4. Gaussian approximation"";
