| Sommario/riassunto | "This journal is focused on the latest research and policy issues in the rapidly-changing and expanding field of Climate Change. Coverage spans a wide range of topics, including Ecological Impacts; Advances in Modeling; Sea Level Projections; Extreme Events; Climate Feedback and Sensitivity; Hydrologic Impact; Effects on Human Health; and Economics and Policy Issues. Expert contributors offer reviews on the latest research, evaluate the efficacy of available options, and discuss special considerations. All articles are peer-reviewed by specialists in the field to ensure accuracy and objectivity."--About this journal, viewed SpringerLink 24 July 2015. |
