

1. Record Nr.	UNINA9910482867903321
Autore	Lobner Sebastian
Titolo	Concepts, Frames and Cascades in Semantics, Cognition and Ontology
Pubbl/distr/stampa	Springer Nature, 2021 Cham : , : Springer International Publishing AG, , 2021 ©2021
ISBN	9783030502003 3030502007
Descrizione fisica	1 online resource (475 pages)
Collana	Language, Cognition, and Mind ; ; v.7
Classificazione	LAN009000PHI015000PSY040000
Altri autori (Persone)	GamerschlagThomas KalenscherTobias SchrenkMarkus ZeevatHenk
Soggetti	linguistics Philosophy of mind Experimental psychology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Preface -- Contents -- Introduction -- 1 Cognitive Structures in Natural Language Semantics -- 2 Cognitive Structures in Philosophy -- 3 Cognitive Structures in Psychology -- 4 Summaries -- 4.1 Part I Pushing the Boundaries of Formal Semantics -- 4.2 Part II Concept Theory -- 4.3 Part III Conceptualizing Eventualities -- 4.4 Part IV Prototypes and Probabilities -- 4.5 Part V Cognition and Psychology -- References -- Pushing the Boundaries of Formal Semantics -- A Compositional Pluralist Semantics for Extensional and Attitude Verbs -- 1 Introduction -- 2 Accounts of Truth-Conditional and Attitude Content -- 2.1 The Relation Between Truth-Conditional and Attitude Content -- 2.2 Attempts at (Re-)Connecting Truth-Conditional and Attitude Content -- 2.3 Desiderata for an Account of Truth-Conditional and Attitude Content -- 3 Integrated Semantics -- 3.1 Centered Informational Situations -- 3.2 The Integrated Content of Sentences -- 3.3 The Interpretation of Proper Names -- 4 The Compositional

Interpretation of VPs -- 5 Extensional and Attitude Verbs in IS -- 5.1
 The Interpretation of Extensional Verbs -- 5.2 The Interpretation of
 Attitude Verbs -- 5.3 Attitudinal Embeddings of Extensional Verbs -- 6
 Conclusion and Future Work -- References -- Counting Possible
 Configurations -- 1 Introduction -- 2 The Problem with Configurations
 -- 3 An Individual Concept Analysis -- 4 Generalizing the Individual
 Concept Analysis -- 4.1 Is Everything an Individual Concept? -- 4.2
 Coercion to Constituting Parts -- 4.3 Joining and Counting Individual
 Concepts -- 4.4 Collective and Cumulative Interpretations -- 5 The
 Property Analysis -- 6 Conclusion -- References -- Structure and
 Ontology in Nonlocal Readings of Adjectives -- 1 Introduction -- 2
 Nonlocal Readings of Adjectives -- 2.1 On 'Occasional' -- 2.2
 Returning to 'Average' -- 2.3 Wrong.
 2.4 'Whole' and 'Entire' -- 2.5 Epistemic Adjectives -- 2.6 Same and
 Different -- 2.7 Modal Superlatives: 'Possible' and Its Kin -- 2.8
 Miscellaneous Obscurities and Novelties -- 3 Three Classes of Nonlocal
 Readings -- 4 Some Background -- 4.1 Incorporation -- 4.2 Structure
 Versus Ontology: The First Step -- 4.3 The Kind Analysis of
 'Occasional' -- 5 The Modular Strategy -- 5.1 Determiner-Like
 Adjectives -- 5.2 Determiners That Work -- 5.3 Determiners That Don't
 Work -- 5.4 A Word About 'Occasional' -- 5.5 The Weak Quantifier
 Class -- 5.6 Summary -- 6 Taking Stock -- 6.1 Could Things Be so
 Simple? -- 6.2 Kinds and Concepts -- 7 Final Remarks -- References
 -- Concept Theory -- How Can Semantics Avoid the Troubles
 with the Analytic/Synthetic Distinction? -- 1 Semantics
 and the Architecture of Cognition -- 2 The Analytic/Synthetic
 Distinction and Semantic Theories -- 2.1 Causatives -- 2.2
 Indeterminacy (or "Coercion") -- 3 Alternative: Atomism and Inferences
 -- 3.1 Back to Causatives -- 3.2 Back to "Coercion" -- 3.3 Conclusion:
 Atomic Concepts and Inferences -- References -- Linguistic Relativity
 and Flexibility of Mental Representations: Color Terms in a Frame
 Based Analysis -- 1 Introduction -- 2 Color Terms and Whorfianism:
 Some Coordinates -- 2.1 Universalism, "deep" and "shallow"
 Whorfianism -- Intertwined Issues -- 2.2 "Shallow" Effects of Color
 labelling -- 3 Frames and Representation of Colors -- 4 Color Words
 and Flexible Use of Representations' Features -- 5 A Brief Excursus into
 Another Conceptual Domain: Counting and Motor Representations -- 6
 Back on Colors: Stroop Task And Language-Perception Interface -- 7
 Conclusions and Open Questions -- References -- Implicatures and
 Naturalness -- 1 Theoretical Background -- 2 Input Data -- 3 Building
 an Implicature Space -- 4 Naturalness -- 5 Concluding Remarks --
 References.
 Perception, Types and Frames -- 1 Introduction -- 2 Types and
 Cognition -- 3 Record Types and Frames -- 4 Conclusion --
 References -- Conceptualizing Eventualities -- An XMG Account of
 Multiplicity of Meaning in Derivation -- 1 Introduction -- 2 Data and
 Analysis -- 3 XMG Implementation -- 4 Conclusion -- References --
 Operationalizing the Role of Context in Language Variation: The Role
 of Perspective Alignment in the Spanish Imperfective Domain -- 1
 Introduction -- 2 On the Spanish Present-Progressive and Simple-
 Present Markers -- 3 The Meaning of the Progressive
 and the Imperfective: A Communicative Perspective -- 4 The Markers
 of the Spanish Progressive Are not in Free Variation: Implications -- 5
 Analysis: The Psychological Roots of Shared Perceptual Access -- 6
 Summary and Conclusions -- References -- A Frame-Based Analysis of
 Verbal Particles in Hungarian -- 1 The Verbal Particle in Hungarian -- 2
 Scalar Analysis and Frame-Semantic Representation -- 3 Semantic
 Analysis of Verbal Particles -- 4 Semantic Composition and the Syntax-

Semantics Interface -- 5 Summary -- References -- On the Fictive Reading of German Steigen 'Climb, Rise': A Frame Account -- 1 Introduction -- 2 Previous Accounts of Fictive Motion -- 3 The Four Major Readings of Steigen 'Climb, Rise, Step' -- 4 Frame Analysis of Dynamic Steigen: Manner and Directional Reading -- 4.1 Frames for Objects -- 4.2 Steigenmm -- 4.3 Steigendir -- 5 Steigenfict: Admissible Modifiers and Subject Referents -- 6 Frame Analysis of Steigenfict -- 7 Steigenins -- 8 Conclusion -- References -- Cascades. Goldman's Level-Generation, Multilevel Categorization of Action, and Multilevel Verb Semantics -- 1 Introduction -- 1.1 The Intuitive Notion of "Level-Generation" -- 1.2 The Structure of the Chapter -- 2 Level-Generation: Doing Multiple Things in One. 2.1 Preliminary: Act-Tokens, Act-Types, and Act-TTs -- 2.2 Goldman's Theory of Act-Levels -- 2.3 Critics of Goldman's Theory -- 2.4 Goldman's Theory of Human Action Applied to Cognitive Representation -- 2.5 Level-Generation and Augmentation Generation -- 2.6 C- Constitution -- 3 Cascades and Verb Classes -- 3.1 Basic Versus Non-basic Act-Types -- 3.2 Verbs of Basic and Non-basic Action -- 3.3 Criterion Predicates -- 3.4 Means of Explicit Level-Generation -- 3.5 Implicit Level-Generation -- 4 Cascades and Frames -- 4.1 Barsalou Frames -- 4.2 Cascades in Frame Theory -- 5 The Writing Cascade -- 5.1 Austin's Speech Act Cascade -- 5.2 The Cascade Structure of Writing by Hand -- 5.3 Types of Products and Levels of Manner Modification -- 5.4 Agencies at Cascade Levels -- 5.5 Objects at Cascade Levels -- 5.6 A Multitrack Notion of C-Constitution -- 6 Reference and Composition -- 6.1 Meaning and Reference of the Verb Write -- 6.2 Cascades and Composition -- 7 Conclusion: Cascades in Cognition, Semantics, and Life -- References -- Prototypes and Probabilities -- Modification and Default Inheritance -- 1 Prototype Compositionality and Modification -- 2 An Extended Modification Model -- 3 Experimental Data -- 3.1 Constraint Influences in the Data of Connolly et al. (ch14Connollyetal2007) -- 3.2 Experiments -- 4 Conclusion -- References -- A Frame-Theoretic Model of Bayesian Category Learning -- 1 Introduction -- 2 Weighted Bayesian Models of Categorisation -- 3 Frames -- 3.1 Challenges and Future Developments -- 4 Conclusion -- References -- Extremes are Typical. A Game Theoretical Derivation -- 1 Typicality: Prototypes Versus Stereotypes -- 2 Typicality and Structured Meaning Spaces -- 3 Extremes and Iterated Best Response -- 4 Conclusion and Outlook -- References -- Grading Similarity -- 1 Introduction -- 2 Similarity Demonstratives. 3 Three Types of Similarity Expressions -- 4 Gradability of ähnlich/similar -- 4.1 What Does It Mean to Be More Similar? -- 4.2 Gradability and Granularity -- 5 Conclusion -- Appendix: Granularity in Multi-dimensional Attribute Spaces -- Domains and Representations -- Indiscernibility -- Granularity and Gradability -- References -- Cognition and Psychology -- Escitalopram Restores Reversal Learning Impairments in Rats with Lesions of Orbital Frontal Cortex -- 1 Introduction -- 1.1 How Is Behavioural Flexibility Measured and Cognitive Flexibility Inferred? -- 2 Methods -- 2.1 Animals -- 2.2 Apparatus -- 2.3 Surgery -- 2.4 Experiment 1: The Effects of Escitalopram on Reversal Learning -- 2.5 Experiment 2: Fos Activity After 1 mg/kg Escitalopram -- 3 Results -- 3.1 Experiment 1 -- 3.2 Experiment 2 -- 4 Discussion -- 4.1 Reversal Learning -- 4.2 The Effects of OFC Lesions on Reversal Learning -- 4.3 The Effects of Escitalopram on Reversal Learning -- 4.4 Fos Activity -- References -- Rat Ultrasonic Vocalizations as Social Reinforcers-Implications for a Multilevel Model of the Cognitive Representation of Action

and Rats' Social World -- 1 Introduction -- 2 Methods -- 2.1 Subjects -- 2.2 Experimental Setup -- 2.3 Acoustic Stimuli -- 2.4 Task Design -- 2.5 Data Analysis -- 3 Results -- 4 Discussion -- 5 A Cognitive Perspective: Acting at Multiple Levels -- 5.1 Goldman's Multilevel Theory of Human Action -- 5.2 Cascades and Learning -- 5.3 Applying Cascade Theory to Rat Behavior in the Experiments Reported -- 5.4 Psychological Commitments of the Cascade Approach -- 5.5 What Can the Cascade Approach Buy Us? -- 6 Conclusions -- References -- Influence of Manner Adverbs on Action Verb Processing -- 1 Introduction -- 2 Experiment 1 -- 2.1 Methods -- 2.2 Results -- 3 Experiment 2 -- 3.1 Methods -- 3.2 Results -- 3.3 Discussion -- References.

When Mechanical Computations Explain Better.

Sommario/riassunto

This open access book presents novel theoretical, empirical and experimental work exploring the nature of mental representations that support natural language production and understanding, and other manifestations of cognition. One fundamental question raised in the text is whether requisite knowledge structures can be adequately modeled by means of a uniform representational format, and if so, what exactly is its nature. Frames are a key topic covered which have had a strong impact on the exploration of knowledge representations in artificial intelligence, psychology and linguistics; cascades are a novel development in frame theory. Other key subject areas explored are: concepts and categorization, the experimental investigation of mental representation, as well as cognitive analysis in semantics. This book is of interest to students, researchers, and professionals working on cognition in the fields of linguistics, philosophy, and psychology.
