

1. Record Nr.	UNINA9910482968803321
Titolo	Advances in Wireless Communications and Applications [[electronic resource]] : Smart Communications: Interactive Methods and Intelligent Algorithms, Proceedings of 3rd ICWCA 2019 / / edited by Roumen Kountchev, Aniket Mahanti, Shen Chong, Srikanta Patnaik, Margarita Favorskaya
Pubbl/distr/stampa	Singapore : , : Springer Singapore : , : Imprint : Springer, , 2021
ISBN	981-15-5697-0
Edizione	[1st ed. 2021.]
Descrizione fisica	1 online resource (XII, 250 p. 88 illus., 61 illus. in color.)
Collana	Smart Innovation, Systems and Technologies, , 2190-3018 ; ; 190
Disciplina	700.1
Soggetti	Wireless communication systems Mobile communication systems Electrical engineering Computer communication systems Computer networks - Security measures Wireless and Mobile Communication Communications Engineering, Networks Computer Communication Networks Mobile and Network Security
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Chapter 1. A Novel Low Complexity Orthogonalization Method -- Chapter 2. Research on Radio Base Station Distribution Technology in Transrapid System Communication -- Chapter 3. A Novel Node Scheduling Algorithm for Solar-Powered Wireless Sensor Networks -- Chapter 4. A USRP-Based Testbed of Multi-Agent Reinforcement Learning for Dynamic Spectrum Anti-Jamming -- Chapter 5. Improved DOA-Matrix Method for Two Parallel Uniform Linear Array -- Chapter 6. UKF Applied in Target Tracking Based on Single Observation Station -- Chapter 7. Research on handover Strategy Based on Greedy Algorithm in Vehicle Edge Computing -- Chapter 8. Safety Analysis Method Considering Cascading Trips Based on Particle Swarm Optimization -- Chapter 9. A Method for Restraining Cascading Trip

Based on Node Power -- Chapter 10. Improved Window Decoding of Spatially Coupled LDPC Codes.

Sommario/riassunto

This book features selected papers presented at the 3rd International Conference on Wireless Communications and Applications (ICWCA 2019), held at Hainan University, China. Focusing on applications of the latest smart theories and approaches, and recent advances in the field, it covers topics such as OFDM and multi-carrier techniques; smart antenna and space-time signal processing; MIMO, multi-user MIMO, and massive MIMO; modulation, coding, and diversity techniques; dynamic spectrum access and cognitive radio; interference management and radio resource allocation; equalization techniques; synchronization, estimation, and detection techniques; and wireless multiple access (e.g. CDMA, OFDMA, NOMA,). .

Sommario/riassunto

Les intendants rouennais n'ont guère, jusqu'à présent, retenu l'attention. Il en est de même du contentieux fiscal dévolu aux

commissaires départis dans les généralités situées en pays d'élections. À ce double titre, l'activité de l'intendant de Rouen, juge du contentieux fiscal au xviii^e siècle offrait un terrain propice à un vaste champ d'étude. Entouré d'un personnel peu nombreux mais de qualité, l'intendant de Rouen vide avec application et modération le contentieux des impôts directs et indirects qui lui est soumis. Il se révèle être un véritable juriste, le plus souvent respectueux de la règle de droit. Contrôlés scrupuleusement par le Conseil du roi, juge d'appel de ses ordonnances, l'intendant de Rouen entre parfois en conflit avec le pouvoir royal en raison de son attitude conciliante envers les contribuables. On est loin en somme de l'arbitraire et des despotes fustigés par les cours souveraines au xviii^e siècle et par les cahiers de doléances en 1789.
