Sommario/riassunto

This contributed volume reflects on the collective wisdom and ongoing efforts of the social work profession that has been in the forefront of the global pandemic of COVID-19. The contributors are seasoned social work academics, practitioners, administrators, and researchers. Working on the frontlines with patients and families, these social workers have garnered experiences and insights, and also have developed innovative ways to mitigate the impact of the coronavirus on the psychosocial well-being of their clients and themselves. The 36 reflections, experiences, and insights in this curated collection address the behavioral, mental health, socioeconomic, and other repercussions of the coronavirus pandemic that have impacted their client base, most of whom are vulnerable populations: Repurposed, Reassigned,
