Sommario/riassunto	This book explores approaches to developing and using postdigital humans and the impact they are having on a postdigital world. It presents current research and practices at a time when education is changing rapidly with digital, technological advances. In particular, it outlines the major challenges faced by today's employers, developers, teachers, researchers, priests and philosophers. The book examines conceptions of postdigital humans and studies the issue in connection with ethics and employment, as well as from perspectives such as philosophy and religion. .
