Autore	Simpson David <1951->
Titolo	Romanticism and the question of the stranger [[electronic resource] /] / David Simpson
Pubbl/distr/stampa	Chicago ; ; London, : University of Chicago Press, 2013
ISBN	1-283-83366-2 0-226-92236-7
Descrizione fisica	1 online resource (282 p.)
Classificazione	HL 1101
Disciplina	820.9/145
Soggetti	Romanticism Other (Philosophy) in literature English literature - History and criticism Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	After 9/11: the ubiquity of others -- Theorizing strangers: a very long romanticism -- Hearth and home: Coleridge, De Quincey, Austen -- Friends and enemies in Walter Scott's crusader novels -- Small print and wide horizons -- Strange words: the call to translation -- Hands across the ocean: slavery and sociability -- Strange women.
Sommario/riassunto	In our post-9/11 world, the figure of the stranger-the foreigner, the enemy, the unknown visitor-carries a particular urgency, and the force of language used to describe those who are "different" has become particularly strong. But arguments about the stranger are not unique to our time. In Romanticism and the Question of the Stranger, David Simpson locates the figure of the stranger and the rhetoric of strangeness in romanticism and places them in a tradition that extends from antiquity to today. Simpson shows that debates about strangers loomed large in the French Republic of the 1790s, resulting in heated discourse that weighed who was to be welcomed and who was to be proscribed as dangerous. Placing this debate in the context of classical, biblical, and other later writings, he identifies a persistent difficulty in controlling the play between the despised and the desired. He examines the stranger as found in the works of Coleridge, Austen,

Scott, and Southey, as well as in depictions of the betrayals of hospitality in the literature of slavery and exploration-as in Mungo Park's Travels and Stedman's Narrative-and portrayals of strange women in de Staël, Rousseau, and Burney. Contributing to a rich strain of thinking about the stranger that includes interventions by Ricoeur and Derrida, Romanticism and the Question of the Stranger reveals the complex history of encounters with alien figures and our continued struggles with romantic concerns about the unknown.

Soggetti	Africa - Economic conditions African Economics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	1. Introduction -- 2. Do capital inflows relieve banks' credit constraints and boost credit growth? Evidence from credit conditions and bank credit risk -- 3. Credit conditions and the amplification of macroeconomic responses to unexpected shocks: Implications for monetary policy -- 4. Output and inflation responses to single and double credit threshold effects in South Africa -- 5. Do contractionary fiscal shocks transmitted via GDP growth dampen credit growth? -- 6. Do synchronised credit and house price booms impact the monetary

policy reaction to inflationary pressures? -- 7. Do synchronised boom and non-boom episodes in credit, commodity and equity prices impact the response of the repo rate to positive inflation shocks? -- 8. To what extent do capital inflows impact response of South African economic growth to positive SA-US interest rate differential shocks? -- 9. Is there a compelling case to increase the SARB holdings of government securities to supplement interest income and neutralize losses due to foreign investments and foreign currency reserves accumulation? -- 10. Are the amplification effects of positive shocks to SARB assets and forex reserves on long-term yields dependent on government debt regimes? -- 11. Foreign Currency Reserves: Do they contribute to GDP and employment growth? -- 12. What is the impact of large-scale asset purchases and banks' balance sheets? -- 13. Is the interest rate corridor an effective instrument to dampen the accumulation of excess reserves and inter-bank rate volatility? -- 14. Is the impact of the unexpected positive required reserves ratio shock on inflation expectations different to that due to positive excess LAH and forex reserves shock? -- 15. How potent is the required reserves impact tightening shock on funding and consumer interest rates? -- 16. The impact of large-scale asset purchases on non-resident purchases of South African assets -- 17. Large scale asset purchases and activity in the primary and secondary share and bond markets -- 18. The stock and bond effects of large-scale asset purchases: Evidence from persistent vs transitory shocks -- 19. Has the inflation target band impacted the natural rate of unemployment in South Africa? Evidence from the accelerationist Philips curve -- 20. Do regulatory tools impact the transmission of capital inflow shocks into credit extension and induce the reallocation of sectoral credit shares? -- 21. What role do non-performing loans play in propagating the excess LAH shock effects on sectoral credit re-allocation? -- 22. Is excess CAR beneficial in neutralising excessive credit growth and inflationary pressures? What are the implications for monetary and financial policy? -- 23. Do non-performing loans propagate the transmission of monetary policy tightening shocks to sectoral credit? -- 24. How effective is the relaxation of the countercyclical capital buffer at a time when other residential macro-prudential tools are tight? -- 25. Revisiting the role of money demand function: Does the short fall in money demand impact the inflation responses of rand depreciation shocks? -- 26. Do the shortfalls and overhangs derived from money demand in South Africa augmented with portfolio balances impact inflation dynamics? -- 27. Do the exchange rate depreciation and volatility shocks impact money demand in South Africa? -- 28. Does economic policy uncertainty impact real money demand in South Africa? -- 29. Is a single sectoral credit growth threshold too restrictive? Evidence from the output and inflation -- 30. Does the threshold for household debt growth matter for GDP growth and response of monetary policy to inflation shocks? -- 31. How does a positive repo rate shock affect the household sector intermediation? Evidence from households' flow-of-funds data -- 32. To what extent are the public and private's sector financial asset flows impacted by monetary policy tightening shock?.

---

## Sommario/riassunto

This book explores the macro-financial effects of central bank balance sheets, macro-prudential tools, and financial regulation in South Africa. How employment can be maximised while keeping inflation low and stable is examined in relation to the structural changes required to alter the composition of South African bank balance sheets. Quantitative methods and approaches are utilised to highlight the impact of suggested policies. This book aims to outline strategies and policy interventions that can help achieve the National Development

Plan in South Africa. It will be of interest to researchers and policymakers working within development economics, African economics, development finance, and financial policy.
