

1. Record Nr.	UNINA9910483035003321
Titolo	New frontiers in artificial intelligence : JSAI-isAI 2009 workshops, LENLS, JURISIN, KCSD, LLLL, Tokyo, Japan, November 19-20, 2009 ;ai revised selected papers / / Kumiyo Nakakoji, Yohei Murakami, Eric McCready (eds.)
Pubbl/distr/stampa	Berlin ; ; New York, : Springer, c2010
ISBN	9786613566133 9781280388217 1280388218 9783642148880 3642148883
Edizione	[1st ed. 2010.]
Descrizione fisica	1 online resource (XII, 374 p. 60 illus.)
Collana	Lecture notes in artificial intelligence ; ; 6284
Altri autori (Persone)	NakakojiKumiyo MurakamiYohei McCreadyElin
Disciplina	006.3
Soggetti	Artificial intelligence Database management
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Juris-Informatics -- Third International Workshop on Juris-Informatics -- Using BATNAs and WATNAs in Online Dispute Resolution -- Thai Succession and Family Law Ontology Building Using Ant Colony Algorithm -- Reflective Visualization of the Agreement Quality in Mediation -- Implementing Temporal Defeasible Logic for Modeling Legal Reasoning -- Evaluating Cases in Legal Disputes as Rival Theories -- Law-Aware Access Control: About Modeling Context and Transforming Legislation -- Knowledge Collaboration in Software Development -- 3rd International Workshop on Supporting Knowledge Collaboration in Software Development (KCSD2009) -- On the Central Role of Mailing Lists in Open Source Projects: An Exploratory Study -- A Proposal of TIE Model for Communication in Software Development Process -- Identifying the Concepts That Are Searchable with Keywords in Code Search Engines -- On the Use of Emerging Design as a Basis

for Knowledge Collaboration -- A Time-Lag Analysis for Improving Communication among OSS Developers -- Comparison of Coordination Communication and Expertise Communication in Software Development: Motives, Characteristics, and Needs -- Logic and Engineering of Natural Language Semantics -- 6th International Workshop on Logic and Engineering of Natural Language Semantics (LENLS 6) -- Representing Covert Movements by Delimited Continuations -- Problems with Intervention and Binding into Relations -- A Translation from Logic to English with Dynamic Semantics -- Semantics of Possibility Suffix "(Rar)e" -- An Adaptive Logic for the Formal Explication of Scalar Implicatures -- Two Kinds of Procedural Semantics for Privative Modification -- On the Nature and Formal Analysis of Indexical Presuppositions -- Non-standard Uses of German 1st Person Singular Pronouns -- Learning with Logics and Logics for Learning -- The Sixth Workshop on Learning with Logics and Logics for Learning (LLLL2009) -- Inferability of Unbounded Unions of Certain Closed Set Systems -- Mining Frequent k-Partite Episodes from Event Sequences -- Learning from Positive Data Based on the MINL Strategy with Refinement Operators -- Computing Minimal Models by Positively Minimal Disjuncts.

Sommario/riassunto

JSAI (The Japanese Society for Artificial Intelligence) is a premier academic society that focuses on artificial intelligence in Japan and was established in 1986.

JSAI publishes journals of the JSAI and bimonthly transactions, and hosts 19 special interest groups. The JSAI annual conference attracts several hundred attendees each year. JSAI-isAI (JSAI International Symposia on Artificial Intelligence) 2009 was the First International Symposium, which hosted three co-located international workshops and one satellite workshop that had been selected by the JSAI-isAI 2009 Organizing Committee.

This is in succession to the international workshops co-located with the JSAI annual conferences since 2001. JSAI-isAI 2009 was successfully held during November 19-20 in Tokyo, Japan; 158 people from 16 countries participated in JSAI-isAI 2009. This volume of

New Frontiers in Artificial Intelligence: JSAI-isAI 2009 Workshops" is the proceedings of JSAI-isAI 2009. The organizers of the four workshops, LENLS, JURISIN, KCSD, and LLLL, hosted by JSAI-isAI 2009, selected 24 papers out of 61 presentations. This has resulted in the excellent selection of papers that are representative of some of the topics of AI research both in Japan and in other parts of the world.
