1. Record Nr.   UNINA9910483038003321

   Titolo   Declarative Agent Languages and Technologies IV : 4th international workshop, DALT 2006, Hakodate, Japan, May 8, 2006 : selected, revised and invited papers / / Matteo Baldoni, Ulle Endriss (eds.)

   Pubbl/distr/stampa Berlin ; ; New York, : Springer, c2006

   ISBN   3-540-68961-3

   Edizione   [1st ed. 2006.]

   Descrizione fisica 1 online resource (VIII, 268 p.)

   Collana   LNCS sublibrary. SL 7, Artificial intelligence
                       Lecture notes in computer science, , 0302-9743 ; ; 4327. Lecture notes in artificial intelligence

   Altri autori (Persone) BaldoniMatteo <1968->
                           EndrissUlle

   Disciplina   055.13/1

   Soggetti   Programming languages (Electronic computers)
                       Declarative programming
                       Intelligent agents (Computer software)

   Lingua di pubblicazione Inglese

   Formato   Materiale a stampa

   Livello bibliografico Monografia

   Note generali   International conference proceedings.

   Nota di bibliografia Includes bibliographical references and author index.

   Nota di contenuto   Invited Talk -- Producing Compliant Interactions: Conformance, Coverage, and Interoperability -- Invited Papers -- Towards Theory Translation -- The Complexity of Model Checking Concurrent Programs Against CTLK Specifications -- Dynamic Model Checking for Multi-agent Systems -- Contributed Papers -- Automating Belief Revision for AgentSpeak -- A Foundational Ontology of Organizations and Roles -- When Agents Communicate Hypotheses in Critical Situations -- A Fibred Tableau Calculus for Modal Logics of Agents -- Programming Declarative Goals Using Plan Patterns -- JADL – An Agent Description Language for Smart Agents -- Agreeing on Defeasible Commitments -- A Dynamic Logic Programming Based System for Agents with Declarative Goals -- A Collaborative Framework to Realize Virtual Enterprises Using 3APL -- A Modeling Framework for Generic Agent Interaction Protocols -- Plan Generation and Plan Execution in Agent Programming -- A Functional Program for Agents, Actions, and Deontic Specifications.
