Sommario/riassunto	This proceedings book is of interest to all researchers and heads of technology laboratories; incubator managers; local and parliamentary elected officials; associations and civil society; social entrepreneurs; foundations interested in social life in Mediterranean region and prospective creative startup students. The purpose of book on social and social-tech innovation synergy and its practical implication on social entrepreneurship is to address the following question: - How can the experiences of the countries be combined of the north and south shores of the Mediterranean and reflect on the different opportunities offered by the new technology to cope with the various social scourges that the region has experienced in recent years? the problem of immigration. It is also about finding advanced technology applications that will solve, on a large scale, the major social challenges of our time. - How to exploit the innumerable synergies between digital and social entrepreneurship? - Why social entrepreneurs are struggling to seize digital tools to develop their socially innovative projects? - What about

their ability to integrate digital into the realization and development of these projects? - How can we combine the experiences of the countries of the north and south shores of the Mediterranean and reflect on the different opportunities offered by the new technology to cope with the various social scourges that the region has experienced in recent years? the problem of immigration.
