1. Record Nr. UNINA990003215430403321

Titolo	Technology and Employment in Industry : a Case Study Approach / edited by A.S. Bhalla ; Foreword by Amartya Sen.
Pubbl/distr/stampa	Geneva : ILO, 1985
ISBN	92-2-103970-6
Edizione	[3rd revised and enlarged ed.]
Descrizione fisica	XVII, 436 p. ; 24 cm
Disciplina	G/1.4 H/2.11
Locazione	SE S
Collocazione	H/211 TEC
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	[A Wep Study]

2. Record Nr. UNINA9910483068103321

Titolo	The 2020 International Conference on Machine Learning and Big Data Analytics for IoT Security and Privacy [[electronic resource]] : SPIoT-2020, Volume 1 / / edited by John MacIntyre, Jinghua Zhao, Xiaomeng Ma
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2021
ISBN	3-030-62743-8
Edizione	[1st ed. 2021.]
Descrizione fisica	1 online resource (XXXI, 884 p. 221 illus., 150 illus. in color.)
Collana	Advances in Intelligent Systems and Computing, , 2194-5365 ; ; 1282
Disciplina	620.00285
Soggetti	Engineering—Data processing Cooperating objects (Computer systems) Computational intelligence Machine learning Big data Data Engineering Cyber-Physical Systems Computational Intelligence Machine Learning Big Data
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Sommario/riassunto	This book presents the proceedings of The 2020 International Conference on Machine Learning and Big Data Analytics for IoT Security and Privacy (SPIoT-2020), held in Shanghai, China, on November 6, 2020. Due to the COVID-19 outbreak problem, SPIoT-2020 conference was held online by Tencent Meeting. It provides comprehensive coverage of the latest advances and trends in information technology, science and engineering, addressing a number of broad themes, including novel machine learning and big data analytics methods for IoT security, data mining and statistical modelling for the secure IoT

and machine learning-based security detecting protocols, which inspire the development of IoT security and privacy technologies. The contributions cover a wide range of topics: analytics and machine learning applications to IoT security; data-based metrics and risk assessment approaches for IoT; data confidentiality and privacy in IoT; and authentication and access control for data usage in IoT. Outlining promising future research directions, the book is a valuable resource for students, researchers and professionals and provides a useful reference guide for newcomers to the IoT security and privacy field.
