Sommario/riassunto	Vordringliches Anliegen dieser Arbeit ist es, die in der "Literaturnaja gazeta" in der Zeit von 1964 bis 1978 veröffentlichten Beiträge zu Sprachfragen, die über dreizehn Jahrgangsbande verteilt sind, weiteren Forschungen zugänglich zu machen. Diesem Zweck dient allein die vollständige Dokumentation der Beiträge (Teil III), sondern auch eine erste Auswertung des sehr umfangreichen und thematisch äußerst vielseitigen Materials, für die sich zwei Fragestellungen anboten: 1. Welche Rolle spielt die Sprachrubrik in der "Literaturnaja gazeta" als Massenmedium in der praktischen sprachpolitischen Arbeit des Institut russkogo jazyka? 2. Wie reagiert der Sprachbenutzer auf solche sprachlenkenden Maßnahmen?

#### Sommario/riassunto

This book constitutes the refereed proceedings of the 10th East European Conference on Advances in Databases and Information Systems, ADBIS 2006. The book presents 29 high-quality papers selected in a rigorous reviewing process. The papers address a wide range of hot research issues and are organized in topical sections on: XML databases and semantic web, web information systems and middleware, query processing and indexing, modelling and design issues, and more.
