   Sommario/riassunto   This book presents the proceedings of the 1st International Conference
                         on Artificial Intelligence and Computer Visions (AICV 2020), which took
                         place in Cairo, Egypt, from April 8 to 10, 2020. This international
                         conference, which highlighted essential research and developments in
                         the fields of artificial intelligence and computer visions, was organized
                         by the Scientific Research Group in Egypt (SRGE). The book is divided
                         into sections, covering the following topics: swarm-based optimization
                         mining and data analysis, deep learning and applications, machine
                         learning and applications, image processing and computer vision,
                         intelligent systems and applications, and intelligent networks.
