1. Record Nr.   UNINA9910483198803321

   Titolo   Mining data for financial applications : 5th ECML PKDD workshop,
                          MIDAS 2020 Ghent, Belgium, September 18, 2020 revised selected
                          papers / / Valerio Bitetta [and five others] editors

   Pubbl/distr/stampa   Cham, Switzerland : , : Springer, , [2021]
                          ©2021

   ISBN   3-030-66981-5

   Edizione   [1st ed. 2021.]

   Descrizione fisica   1 online resource (X, 151 p. 64 illus., 50 illus. in color.)

   Collana   Lecture Notes in Artificial Intelligence ; ; 12591

   Disciplina   006.3

   Soggetti   Data mining
                          Finance - Data processing
                          Data protection

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico Monografia

   Nota di contenuto   Trade Selection with Supervised Learning and Optimal Coordinate
                          Ascent (OCA) -- How much does Stock Prediction improve with
                          Sentiment Analysis? -- Applying Machine Learning to Predict Closing
                          Prices in Stock Market: a case study -- Financial Fraud Detection with
                          Improved Neural Arithmetic Logic Units -- Information Extraction from
                          the GDELT Database to Analyse EU Sovereign Bond Markets -- Multi-
                          Objective Particle Swarm Optimization for Feature Selection in Credit
                          Scoring -- A comparative analysis of Temporal Long Text Similarity:
                          Application to Financial Documents -- Ranking Cryptocurrencies by
                          Brand Importance: a Social Media Analysis in ENEAGRID -- Towards the
                          Prediction of Electricity Prices at the Intraday Market Using Shallow and
                          Deep-Learning Methods -- Neither in the Programs Nor in the Data:
                          Mining the Hidden Financial Knowledge with Knowledge Graphs and
                          Reasoning -- Exploring the Predictive Power of News and Neural
                          Machine Learning Models for Economic Forecasting.

   Sommario/riassunto   "Information Extraction from the GDELT Database to Analyse EU
                          Sovereign Bond Markets" and "Exploring the Predictive Power of News
                          and Neural Machine Learning Models for Economic Forecasting" are
                          available open access under a Creative Commons Attribution 4.0
