Sommario/riassunto	Passionate, vigorous and uncompromising this book takes the lid off the confused Western response to the Balkan war. The author raises a series of timely and acute questions about the future of postmodernism and postcommunism. The author claims that the Balkan war has de-railed the movement for unification in Europe. The Islamic world has seen that the West is quite willing to bomb Muslim targets, from Iraq to

Somalia, but absolutely unwilling to wage a 'just war' to save the Bosnian Muslims. He concludes that the Balkan war is a key catalyst in the unravelling of the West.

Nota di contenuto	1. The Unconscionability Doctrine in a Law & Economics Perspective -- 2. Market structure -- 3. Lack of sophistication -- 4. Voluntary Disclosure of Clauses -- 5. Public Intervention -- 6. Concluding remarks.
Sommario/riassunto	This book examines the most controversial issues concerning the use of pre-drafted clauses in fine print, which are usually included in consumer contracts and presented to consumers on a take-it-or-leave-it basis. By applying a multi-disciplinary approach that combines

consumer's psychology and seller's drafting power in the logic of efficiency and good faith, the book provides a fresh and unconventional analysis of the existing literature, both theoretical and empirical. Moving from the unconscionability doctrine, it criticizes (and in some cases refutes) its main conclusions based on criteria which are usually invoked to sustain the need for public intervention to protect consumers, and specifically related to Law (contract complexity), Psychology (consumer lack of sophistication criterion) and Economics (market structure criterion). It also analyzes the effects of different regulations, such as banning vexatious clauses or mandating disclosure clauses, showing that none of them protect consumers, but in fact prove to be harmful when consumers are more vulnerable, that is whenever sellers can exploit some degree of market power. In closing, the book combines these disparate aspects, arguing that the solution (if any) to the problem of consumer exploitation and market inefficiency associated with the use of contracts of adhesion in these contexts cannot be found in removing or prohibiting hidden clauses, but instead has to take into account the effects of these clauses on the contract as a whole.
