

1. Record Nr.	UNINA9910483264703321
Titolo	Transactions on aspect-oriented software development III // Awais Rashid, Mehmet Aksit (eds.)
Pubbl/distr/stampa	New York, : Springer, 2007
ISBN	3-540-75162-9
Edizione	[1st ed. 2007.]
Descrizione fisica	1 online resource (IX, 206 p.)
Collana	Lecture notes in computer science ; ; 4620 LNCS sublibrary. SL 2, Programming and software engineering, , 1861-3027
Altri autori (Persone)	RashidAwais AksitMehmet
Disciplina	005.1
Soggetti	Computer software - Development Object-oriented programming (Computer science)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Guest Editors' Introduction: Early Aspects—Analysis, Visualization, Conflicts and Composition -- EA-Miner: Towards Automation in Aspect-Oriented Requirements Engineering -- Analysis of Early Aspects in Requirements Goal Models: A Concept-Driven Approach -- Analysis of Crosscutting in Early Software Development Phases Based on Traceability -- Visualizing Early Aspects with Use Case Maps -- Handling Conflicts in Aspectual Requirements Compositions -- Weaving Multiple Aspects in Sequence Diagrams.
Sommario/riassunto	The LNCS Journal "Transactions on Aspect-Oriented Software Developmen"t is devoted to all facets of aspect-oriented software development (AOSD) techniques in the context of all phases of the software life cycle, from requirements and design to implementation, maintenance and evolution. The focus of the journal is on approaches for systematic identification, modularization, representation and composition of crosscutting concerns, i.e., the aspects and evaluation of such approaches and their impact on improving quality attributes of software systems. This volume, the third in the Transactions on Aspect-Oriented Software Development series, presents 6 revised papers together with a guest editors' introduction. The papers, which focus on analysis, visualization, conflict identification and composition

of early aspects, have passed through a careful peer reviewing process,
carried out by the journal's Editorial Board and expert referees.
